I have been laying stone products for 10 years on the Gold Coast and in Coffs Harbour area before that. Paving, Tiling feature walls and retaining walls with stone.

My Clients and I have purchased stone from many different wholesalers, retailers on the Gold Coast and Brisbane. Mostly with Mixed results.

I have been purchasing from Gold Coast Natural Stone for a year and all the stone I have received has been top quality every time. I have installed approx. 1000m² of tiles and similar in pavers. Walling products I have laid about 200m² in the last year. I have many happy customers. From an installers point of view good quality products are much better to lay.

If there has been a small issue as it is a natural product it will be resolved. Swapped over or whatever is needed.

The Customer service is fantastic. You can reach them on the phone. Any Installation advise you need is only a phone call away. I have been purchasing the adhesives and sealers form them as well.

It is good to deal with a company that puts customers 1st. At Gold Coast Natural Stone that is what happens.
